What Celebrity Children Are Wearing As If You Cared About That Sort Of Thing

This month, [Celebrity Baby Blog](#) gave us a look at new again mama [Julia Roberts](#) carrying Henry on her chest - although probably not to hide her gut like the rest of us do.

She's got him snug and secure in a dad-designed [Belle Baby Carrier](#) which plenty of parents swear by for transferring the weight from your back to your hips. Underneath, we catch a glimpse of an [Aden+Anais](#) muslin swaddling blanket--a CMP fave!--from the [blue muslin collection](#). Muslin helps keep babies cool, even when their mamas run at breakneck speed from camera-wielding fans. Now there's a torture test.
