## Baby Green Jeans

Mary, Mary, quite the ecofairy, how does your garden grow?

With organic clothes, sustainable toys, and nontoxic binkies all in a row.

For supplies, head to The Little Seed, a new green lifestyle boutique on Larchmont.

Harvest art supplies like Mary's Softdough, cotton duds for boys and girls by Speesees, Lilipad handcrafted furniture, and Belle baby carriers. And for you, nature-inspired jewelry by Jennifer Meyer, and baby registry and green nursery design services on the way.

They really have thought of everything: a play area for babes, nursing and changing rooms, too.

Because you never know when nature will call.
