

Gentle Front-Support Baby Carrier

In the Media: Mom Central - July 2008

As Moms, we know that when we find a product that works well and simplifies our lives, we stick with it. That's how I know that Moms everywhere will love the Belle Baby Carrier by Inventista. This carrier is as stylish as it is simple. Made of high-quality fabrics that are both strong and washable, the carrier is easy to use, but provides great support for baby. The waist belt even holds half of the baby's weight, an incredibly helpful feature (as anyone who has spent all day wearing a baby knows!).

Here, the Belle is shown in Organic Sand.
