HIP FINDS FOR MOMS AND KIDS

What: Belle Baby Carriers

Why: Good for you, good for Baby. Belle Baby Carriers let you keep Baby up front, secure and stylish. Even if you've tried other carriers, consider the comfort offered by Belle, which has a waist belt to help distribute your child's weight and lessens the load on your shoulders. Super-swank fabric adorns the carrier. You're sure to find the one that's perfect for you, from prints to embroidery to organic.

Belle lets you carry Baby either facing in or out. You can also adjust the height of Baby's seat. Each carrier is handmade in Colorado and is washable. Easy-to-follow instructions accompany each Belle Baby Carrier and there's an instructional video on their site.

Hey, it's so great that Julia Roberts has been seen wearing one. See for yourself how baby safety, product quality, comfort, and contemporary style converge to bring you Belle Baby Carrier.
