

Gentle Front-Support Baby Carrier

In the Media: Photo Bug Baby - Oct. 2008

The Belle Baby Carrier is Phenomenal!

Pros:

These baby carriers are phenomenal! I have tried many abby carriers and this one is the only one that did not hurt my back when carrying baby. There is a 5-point support system that is easily adjustable and allows you transfer baby's weight directly to your hips, not your back. The carriers are made from strong, durable fabrics and extremely soft against baby's skin. The carriers also allow for discrete nursing. There is also a very nice variety of colors to choose from. You will not be disappointed in the product!

Cons:

I couldn't find any flaws to report. Worth the price!

Recommendation:

I would strongly recommend this item to my friends

Rating:

I give this item a rating of 4.0
