From Back Pain to Relief - Introducing the Belle Carrier

From back pains to difficult assembly, mothers tend to have a love-hate relationship with baby carriers. We have been clued into Belle Baby Carrier as a means of relief.

The press coverage and parent reviews for this product have been incredible:

"I just wanted to share my thanks for such a wonderful product. I have tried two other baby carriers and were so frustrated with all of the fabric (baby sling) and misc snaps, buckles, and zippers. I felt like I needed a PhD in baby wearing to put the product on and situate the baby correctly. Within three minutes of opening the belle box I was carrying my 7 week old around the house. I love the simplicity!! And the fabric is lovely. It is so snuggly my little one rubs his cheek against the inner lining and goes right to sleep. What a great product!"

This carrier allows your baby to face toward you or turned around looking out and comes in 10 different fabrics to choose from. The benefits of this product include shifting your baby's weight to your hips instead of your back and shoulders, less bulk, proper positioning of your child's spine and simplicity of use
