

Gentle Front-Support Baby Carrier

In the Media: Swanky Moms - March 15th, 2007

Swanky Moms

where hip moms hang out

Designed by two rock climbing Dads, Belle Baby Carriers are a quality front support baby carrier. The carriers are SO soft, made from luxurious, strong and durable fabrics. The interior side of the carrier feels like a teddy bear!

Benefits of Belle Baby Carriers:

Belle Baby Carriers are easily adjustable with a five-point support system that allows you to transfer your baby's weight directly to your hips, not your back.

- The Belle nestles your baby directly against you, either facing toward you or away from you.
- The Belle will hold babies from 10-25 pounds.

Customers rave about Belle Baby Carriers: "...We hiked for over 5 hours, and we were always comfortable carrying him because the Belle allowed his weight to be distributed to the hips rather than relying exclusively on the back and shoulders. I can't say enough good things about the Belle..." Brittany L., Colorado
